EDUCATION

 PhD in EE: Character-level Adversarial Robustness in NLP <i>LIONS (Volkan Cevher's Lab) - École Polytechnique Fédérale de Lausanne (EPFL)</i>	09/23 - 03/26
 MSc in Applied and Computational Mathematics <i>Universidad Carlos III de Madrid (UC3M)</i>	09/22 - 06/23
 BSc in Data Science and Engineering <i>Universitat Politècnica de Catalunya (UPC)</i>	09/18 - 07/22

WORK EXPERIENCE

 Research Engineer <i>Google Deepmind</i>	3/26 - Today <i>Zürich</i>
Working with the Universal Knowledge team.	
 Student Researcher <i>Google Deepmind</i>	5/25 - 11/25 <i>Zürich</i>
Worked with the Universal Knowledge team on Retrieval Augmented Generation (RAG) research. Studying methods to organize knowledge and make it accessible to Large Language Models (LLMs).	
 Research Intern <i>Institut de Robòtica e Informàtica Industrial (IRII)</i>	6/21 - 1/22 <i>Barcelona</i>
Worked with Dr. Jordi Sánchez Riera on building a system able to classify different helicopter models, read their plates and track their movement and the people in the heliport in real time.	

RESEARCH EXPERIENCE - PUBLICATIONS

Robustness in Both Domains: CLIP Needs a Robust Text Encoder   <i>PhD Project / NeurIPS'25 ArXiv</i>	10/24 - 6/25
Certified Robustness Under Bounded Levenshtein Distance  <i>PhD Project / ICLR'25 ArXiv</i>	2/24 - 1/25
Membership Inference Attacks against Large Vision-Language Models  <i>PhD Project / NeurIPS'24 ArXiv</i>	1/24 - 8/24
Revisiting Character-level Adversarial Attacks for Language Models  <i>PhD Project / ICML'24 ArXiv</i>	9/23 - 2/24
Efficient local linearity regularization to overcome Catastrophic Overfitting  <i>Master's Thesis / ICLR'24 ArXiv</i>	2/23 - 9/23
Sound and Complete Verification of Polynomial Networks  <i>Bachelor's Thesis / NeurIPS'22/ JMLR extension ArXiv</i>	2/22 - 2/23

AWARDS

- **Winner of the [ETHz Datathon](#)** (2025)
- **Winner of the BitsXlaMarató Hackathon** (2020)
- **Winner of the FME Datathon** (2021)
- **First place** in the Elche Regional Physics Olympiad (2017)
- **Second place** in the Elche Regional Mathematics Olympiad (2017)
- **Participant** in the Spanish National Physics Olympiad (2018)
- **JAE-Intro Introduction to Research Scholarship.** Awarded by Spanish National Research Institute (CSIC) to excellent BSc and MSc students (2021)
- **Honors in the Statistical Signal Processing course** (2023)
- **Honors in the MSc Thesis** (2023)

SKILLS

Programming	Python, R, C, C++, Git, bash, L ^A T _E X, Matlab
Communication	Spanish (native), Catalan (advanced), English (advanced), French (beginner)

HOBBIES

Outdoors and endurance sports enthusiast. Competitor in Track and Field and Trail Running at national level for several years.

Shortlist of Accomplishments

- **Mont Blanc (4810m) ascensionist** (Chamonix, 2015).
- **10th in the Spanish Vertical Kilometer Championships** (Fuente Dé, 2016)
- **6th in the Spanish Trail Running Championships** (Zumaia, 2017)
- **Spanish High Performance Athlete Level B** (2017-2019)
- **2nd in the Valencian Vertical Kilometer Championships** (Finestrat, 2021)
- **18th team in the Spanish Cross Country Championships by Teams** (Atapuerca, 2022)
